

VILLAGE BAKERY WREXHAM

HALF MARATHON: DETAILS OF

ROAD CLOSURE AND DIVERSIONS

Oak Road from the junction with Bryn Lane and the junction with the B1530 at Isycoed will be closed completely from 09.30 until 13.00. Vehicles approaching the Oak Road Junction of B1530 from Bowling Bank will be signposted and diverted through Cross Lanes before they reach Sun Lane.

B1530 Isycoed from the junction with Oak Road to the junction with Ridley Wood Road will be closed completely from 09.45 until approx 11.00am or as soon as the sweep vehicle passes from B1530 towards Rodens Hall Road at the start of the second lap of the race. As soon as this section of the B1530 is clear of runners we will reopen this closure. Vehicles will still be unable to drive into Oak Road and a diversion will be in place. The junction of B1530 and Ridley Wood Road will remain closed from 09.45 until approx 12.45 as the last runners past to ensure the safety of runners and motorists.

Bryn Lane from the junction with Oak Road along the road to Ridley Wood Road, past the Nag's Head on B1530 onto Francis Lane to the junction with the A534 will be a one way. There will still be access to the recycling centre and the Kellogg's site. Vehicles will not be allowed to enter Francis Lane from the A534 but will be diverted past the Holt Lodge Hotel onto Wrexham Industrial Estate Road, along Abenbury Way towards the one way system at Bryn Lane.

In short we will work hard to maintain movement around the industrial estate and village of Isycoed. It is necessary for the safety of runners, marshals and motorists that the short stretch of road through the village will remain completely shut from 09.45 until approx 11.00am. We are grateful for your patience and ask that you plan your journeys accordingly".
